

# Space Engineering International Course (SEIC) Timetable

## 2020 Second Semester (3rd & 4th quarter)

Subject (Eng.)

Subject (JPN)

Lecturer  
Lecture room  
building and floor

### <3rd quarter> October 1st, 2020 – December 1st, 2020

|                  | Monday                                                                                                                                             | Tuesday                                                                                                                              | Wednesday                                                                                                                                          | Thursday                                                                                                                    | Friday                                                                                                                   |
